

COMPUTER RISK MANAGEMENT, INC.

## **Computer Risk Management Hires Network Manager, Expands ASP Offering**

**Oklahoma City, OK, June 9, 2007** – Computer Risk Management (CRM) a provider of claims and risk management software today announced that it has hired Marco Deras as Network Manager. The company also announced the expansion of its hosted Application Service Provider services.

Mr. Deras will be primarily responsible for the networking and maintenance of CRM's hosted services, both Risk2006™ and Risk2009™, an updated version of the company's claims management software, scheduled to be released in the fourth quarter 2008. He will also provide customer support for the Risk2006™ and Risk2009™ applications.

"We are seeing increased demand for the hosting of our claims management software. The addition of Marco and our expanded hosting capabilities will allow us to respond to that demand", said John Sullivan, Chairman of Computer Risk Management. "We are pleased to welcome Marco to Computer Risk Management."

Mr. Deras has 15 years experience in computer networking and systems administration. He was formerly Network Manager and Systems Administrator for the 72<sup>nd</sup> Medical Group of the US Air Force at Tinker Air Force Base, OK.

### **About Computer Risk Management (CRM)**

CRM is a software provider to the claims and risk management industries. Its products are used by organizations to internally manage claims and control the costs of self-insured risks. The company primarily serves the needs of the transportation industry and public sector.
